Recycle your old jeans

Friday 25th 10.00 – 15.00 (break for lunch) Castleton Hall downstairs,

8 spaces £25

- There will be an end product for all, as you will be making a bag from an old pair of jeans. Participants should bring an old pair of jeans with them, and an old pillow case (to line the bag)
- The bag can be a simple shopping bag, or can have additional features added to it, depending on your skill level, such as patch pockets, applique designs and zippers. The style of bag will be determined by the size of jeans.
- Participants should bring their sewing machine with them to use, with a needle suitable for denim for the machine. We do have a couple of 'village machines' you can borrow if necessary.
- I will bring spare jeans and fabric for those that do not have. (But I would have to ask for a small donation towards them)
